Profile

Project Manager/Product Owner with a dynamic 7-year career spanning test automation, test leadership, Agile Project Management, and Product Ownership. Experienced in leading cross-functional teams in both small and large projects across continents. Proven ability to seamlessly integrate into diverse environments, bridging technical and business domains to drive alignment and execution. My leadership approach combines a strong technical foundation with strategic data driven decision-making, fostering collaboration, adaptability, and continuous improvement. Whether managing a global fintech initiative or an in-house development team, I excel in motivating team members, providing guidance, and ensuring project success.
